THOOGUDEEPA DONNE BIRYANI MANE

MASTER INITIAL SPECIFICATION & SCREEN STRUCTURE BLUEPRINT

Architecture: Strictly 16 Dining Seats (Zero Tables) • 5 Interconnected Portals • Sub-15ms WebSocket Spine

1. CUSTOMER QR PORTAL (8 Frictionless Mobile Screens)

Screen 1: Welcome & Seat Landing (/seat/[seatId])

- Header: Official brand title, logo badge, and theme switcher (Burnt Orange vs Royal Emerald).
- Seat Badge: Dedicated seat pill indicator (SEAT 01 to SEAT 16) with pulsing live indicator.
- Guest Input: Centered optional customer name input.
- Primary CTA: Full-width [Explore Menu ->] button initiating active dining session.

Screen 2: Interactive Food Catalog (/seat/[seatId]/menu)

- Header: Seat & customer name chip with 1-tap [Call Waiter] shortcut and theme toggle.
- Controls: Search bar with instant filter and Pure Veg toggle switch.
- Promotions: Horizontal swipeable promotional banner carousel (COMBO399, DONNE50).
- Menu Grid: 21 authentic items organized into 3 categories with prices, veg/non-veg tags, and descriptions.
- Cart Bar: Sticky floating bottom bar showing live item count, subtotal, and [View Cart ->].

Screen 3: Review Cart & Recommended Pairings (/seat/[seatId]/cart)

- Order Review: Itemized list with thumbnail imagery, unit prices, quantity steppers, and delete button.
- Upselling: Horizontal "Recommended Pairings" slider to add complementary sides/soups.
- Math Engine: Real-time item subtotal, 5% GST computation, and grand total.
- Order Dispatch: [Place Order ->] button with debounce protection to prevent accidental duplicate tickets.

Screen 4: Live Order Tracking & Stepper (/seat/[seatId]/tracking)

- Real-Time Stepper: Visual progress timeline: Placed -> Preparing -> Ready -> Served.
- Active Items: Live list of cooking items updating via WebSocket without page refreshes.
- Add Items: [+] Add more dishes button returning seamlessly to menu catalog.
- Mutual Payment Lock: [Pay via Waiter] vs [Self Pay (UPI)] - selecting one disables the other.

Screen 5: Pay via Waiter Settlement (/seat/[seatId]/settle-waiter)

- Promos: Coupon code entry box with instant percentage/flat deduction calculation.
- Bill Summary: Total payable amount with GST breakdown and discount line.
- Mode Selector: Cash at Seat vs UPI on Waiter Handset selector.
- Notification: Broadcasts settlement request directly to assigned waiter phone (Suhas / Shiva).
- Feedback: 5-Star interactive customer rating selector with [Your Bill ->] navigation.

Screen 6: Self Pay via Direct UPI QR (/seat/[seatId]/settle-self)

- Dynamic UPI QR: Dynamic QR code pre-encoded with exact bill total and restaurant UPI VPA.
- 1-Tap Intent: Quick-launch buttons for Google Pay, PhonePe, and Paytm on customer mobile.
- Confirmation: Real-time polling and WebSocket listener confirming payment verification.
- Invoice Link: [Your Bill ->] button providing instant tax invoice.

Screen 7: Digital Tax Invoice Receipt (/seat/[seatId]/bill)

- Receipt Header: Restaurant branding, GSTIN, invoice number, seat number, date and time.
- Itemized Table: Full breakdown of ordered dishes, quantities, rates, and totals.
- Tax Breakdown: Subtotal, CGST (2.5%), SGST (2.5%), and Grand Total.
- PDF Export: Integrated [Download Bill (PDF)] button generating branded PDF offline via jsPDF.
- Footer: Traditional Kannada & English welcome note: Thank you, visit again!

Screen 8: Quick Service Requests (/seat/[seatId]/help)

- 4 Touch Action Cards: Water, Clean Seat, Extra Plates, and Call Waiter Directly.
- Special Note: Optional text area for special requests or table notes.
- Dispatch: [Send Request to Waiter] button emitting alert to assigned waiter room.
- Live Tracker: Real-time request status indicator: Sent -> Waiter Notified -> Resolved.

2. KITCHEN DISPLAY SYSTEM - KDS (2 High-Contrast Steam-Resistant Screens)

Screen 1: KDS Security Login Gateway (/kitchen)

- Interface: High-contrast dark terminal designed for commercial kitchen lighting.
- Tactile Numpad: 4-digit PIN gateway (PIN: 3333).
- Audio Arming: Login action unlocks browser Web Audio Context for audible order chimes.

Screen 2: 3-Column Production Ticket Board (/kitchen/kds)

- Column 1 (Received Orders): Incoming tickets showing Placed Time, Seat badge, dishes, and [Mark Cooking ->].
- Column 2 (Items Cooking): Active cooking orders with individual item checkboxes, cancel item option, and [Mark Ready ->].
- Column 3 (Items Ready): Completed dishes awaiting waiter pickup with pickup chimes.
- 86 Sold-Out Drawer: Slide-over inventory drawer allowing chef to instantly 86/sold-out any dish across all customer menus.

3. WAITER MOBILITY - SUHAS (Zone A: Seats 1 to 8) (5 Handheld Screens)

Screen 1: Waiter Handheld Login (/waiter/suhas)

- 4-Digit PIN gate (PIN: 1111) with device screen wake-lock to prevent screen sleep during service.

Screen 2: Zone A Floor Grid (/waiter/suhas/floor)

- Seats 1 to 8 live grid with color badges: Vacant (+ Take Order), Dining, Food Ready, Service Call, Bill Requested.
- Auditory & Haptic alerts: Vibrates and pings exclusively for Seats 1 to 8.

Screen 3: Seat Detail & Order Action (/waiter/suhas/seat/[id])

- Seat inspection view showing customer name, elapsed dining time, and item preparation statuses.
- Service call resolution banner with 1-tap [Resolve Water] button.
- Direct action controls: [+ Add Items] and [Settle Bill].

Screen 4: Fast Order Punching (/waiter/suhas/seat/[id]/order)

- Handheld touch menu for fast punching of extra dishes on the floor.
- Quantity counter [- qty +] and instant [Place Order ->] button updating KDS in real time.

Screen 5: Cash Collection & Vacate Seat (/waiter/suhas/seat/[id]/settle)

- Final bill review, payment mode selector (Cash / UPI), and cash change calculator.
- Payment confirmation toggle: Confirm Payment Received.
- Table Reset: [Vacate Seat] button immediately resetting seat status to Vacant across the system.

4. WAITER TABLET - SHIVA (Zone B: Seats 9 to 16) (3 Unified Screens)

Screen 1: Tablet Login Gateway (/waiter/shiva)

- Tablet PIN gate (PIN: 2222) with landscape layout.

Screen 2: Zone B Landscape Floor Grid (/waiter/shiva/floor)

- 4x2 Landscape grid of Seats 9 to 16 with large touch cards and status indicators.
- Emergency Break Toggle: [View All 16 Seats] allowing Shiva to cover Suhas during breaks.

Screen 3: Unified Master-Detail Workspace (/waiter/shiva/seat/[id])

- Left Fixed Panel: Seat overview, active item tickets, service request alerts.
- Right Dynamic Panel: Seamlessly switches between Single-Column Touch Menu and Settle Payment/Vacate Seat.

5. MANAGER EXECUTIVE COCKPIT (9 Comprehensive Screens)

Screen 1: Executive PIN Gateway (/manager)

- Manager authentication screen (PIN: 9999) with official Thoogudeepa brand badge.

Screen 2: Live Floor Cockpit (/manager/floor)

- 16-Seat floor map partitioned into Zone A (S1-S8) and Zone B (S9-S16).
- Right-Side Selected Seat Drawer: Full ordered items inspection, subtotal, GST math, [Collect Payment] and [Vacate Seat].

Screen 3: Live Kitchen KDS Stream (/manager/kitchen)

- Real-time mirror of kitchen queue, preparation times, delayed order warnings, and 86 item inventory switcher.

Screen 4: Parcel & Takeaway Operations Desk (/manager/parcel)

- Counter takeaway order puncher with customer name and phone, Rs 15 container charges, and instant KOT generation.

Screen 5: Menu Catalog & Pricing Engine (/manager/menu)

- Complete dish catalog with price editor, Veg/Non-Veg toggle, availability switch, and Pair-With recommendation tags.

Screen 6: 16 QR Standee Suite (/manager/qrs)

- Generates and renders high-resolution printable acrylic QR standees with authentic restaurant branding for Seats 1 to 16.

Screen 7: Shift Audit & Cash Reconciliation (/manager/shift)

- End-of-day register closing: Reconciles cash collected vs handed over by Suhas, Shiva, and Parcel desk with deficit/surplus math.

Screen 8: Master Sales & Daily Tax Reports (/manager/reports)

- Detailed tax accounting: Gross food revenue, net revenue, 5% GST breakdown, payment split (Cash vs UPI), and Excel export.

Screen 9: Promotions & Offers Engine (/manager/promos)

- Coupon code management (COMBO399, DONNE50), usage limits, and customer menu promotional carousel banners.
